To our Employees and Colleagues:

Versant Diagnostics (“VERSANT DIAGNOSTICS”) aims to become the nation’s largest independent Physician Services Company focused on Anatomic Pathology. We combine advanced technology with the most skilled and diverse set of pathologists to provide superior, one-stop service to hospitals and independent practices. At Versant Diagnostics, precise, timely and compliant service to our physician partners comes before all else. Because we know every minute and minutiae counts when it comes to the physicians’ practice and their patient’s health. In providing our services we are committed to establishing and maintaining a workplace environment reflective of our Mission and Vision.

We are committed to the highest quality of healthcare and management services that we provide to our affiliated labs and organizations we serve. We are promoting a safe and diverse work environment, ethical business practices, grounded in compliant operations and mutual respect for our work. We are committed to excellence in care and service at Versant Diagnostics, our affiliates and partners. We are also committed to compliance with all applicable laws, regulations, as well as our own policies and procedures.

A key element of our Compliance Program is the *Versant Diagnostics Code of Conduct* (“Code”) that affirms our mission, vision, values and professional standards at Versant Diagnostics and those entities we serve, manage or own. Our Code is our overall compliance guidance document and applies to all Versant Diagnostics employees, the employees of affiliated entities we own or manage as well as our Board.

Our success requires the active participation of every individual associated with our organization. If you know or suspect that a law, regulation, policy or our Code are not being followed, you have an affirmative duty to report this information. Our open door policy encourages you to report or discuss a concern. We have designated a Chief Compliance Officer to lead our Compliance Program activities and established a toll-free *Compliance Hotline*. Reports can be made confidentially and anonymously. We also can assure you that management will not tolerate retaliation for good faith reporting items of concern to anyone in management, Human Resources, the Chief Compliance Officer, or the Hotline.

Our managers, pathologists, and physician leaders join us in pledging our full commitment to upholding the *Code of Conduct* and the Compliance Program. By complying with these standards you will help to maintain a positive, safe and compliant and diverse work environment for you, your coworkers and colleagues. Our compliance efforts are critical to making Versant Diagnostics the type of company we all want to work for and can be proud of.

Sincerely,

James Billington, CEO

INTRODUCTION TO THE COCE OF CONDUCT ("CODE")

We are committed to the goal of serving our clients, affiliates and their providers and patients, and business partners in an ethical, legal and responsible manner, consistent with Versant Diagnostics' mission and values. Our reputation for integrity and excellence requires careful observance all applicable laws and regulations, as well as the highest standards of conduct and personal integrity. The *Code of Conduct*, is the foundation of our Compliance Program and serves as our code of behavior guiding us in our daily activities and business dealings.

The *Code*, as well as all statutes, regulations, guidelines, and our policies and procedures **must be observed by everyone**: employees, pathologists of affiliates, physicians, contractors, volunteers, and members of the board of directors, officers and anyone else engaged in our work environment or acting on behalf of Versant Diagnostics or its managed or owned entities. No one, regardless of position, will be allowed to compromise adherence to the *Code*, statutes, regulations, business standards, policies or procedures. Failure to comply with the *Code*, statutes, regulations, guidance, policies and procedures can result in serious damage to our standing in the community, regulatory action against the organization and individual employees, and employee disciplinary action up to and including immediate termination.

If you have any questions about the *Code* or about any of our policies or practices, don't hesitate to ask questions to your immediate supervisor, another manager, Human Resources, or the Chief Compliance Officer. Our managers and the Chief Compliance Officer have been charged with a special obligation to be available and responsive to employees when questions arise about adherence to the *Code*. We also implemented a confidential *Compliance Hotline*, you may contact at **855-252-7606** to voice your concerns. The Compliance Hotline is a toll free number, available 24 hours a day and offers anonymity if you so choose.

The *Code* is designed to provide general guidance, and does not replace our policies and procedures, but assist us as a guidepost in navigating through the complex regulatory and enforcement environment in healthcare. Rather, it serves as a "constitution" for our Compliance Program. If there is no specific policy, the Code becomes the policy. If a policy and a Code conflict, the Code becomes the policy. In seeking additional guidance and direction regarding the *Code*, employees are encouraged to refer to existing compliance policies and procedures. The *Code* is a "living document," which will be updated periodically to respond to changing conditions. Thus, Versant Diagnostics reserves the right to modify or terminate any or all of the standards or principles in the *Code* at any time.

FOUR-STEP COMMUNICATION AND REPORTING PROCESS

If you have a question or concern about an activity being unethical, illegal, or wrong, use the following 4-step process to answer questions and report concerns. Throughout this process your identity will be kept confidential as much as possible and within the limit of the law.

1. Talk to your supervisor who would likely be most familiar with the laws, regulations, and policies that relate to your work.
2. If you are not comfortable contacting your team leader or supervisor, or if you don't receive an adequate response from them, talk to another member of the management team or Human Resources.
3. If you have followed either #1 or #2 and still have questions, contact our Chief Compliance Officer (CCO) at Versant Diagnostics at (214-432-4003). The CCO will maintain your confidence and work to resolve any issues in a fair and unbiased manner.
4. If for any reason you feel you cannot follow the above steps, or don't want to give your name, i.e., report anonymously, contact the **Compliance Hotline** at **1-855-252-7606** or report via web form. The Chief Compliance Officer will address all reports made to the Versant Diagnostics *Compliance Hotline*.

COMPLIANCE HOTLINE

We recognize that there are times when questions or problems cannot be addressed through the normal communication and reporting process. When this happens, you should use the *Compliance Hotline*. We have hired an outside professional hotline service center company to take Hotline calls and web postings, so callers who do not wish to give their names can remain anonymous. The confidential **Compliance Hotline** may be reached at **1-855-252-7606**.

Calls to the *Compliance Hotline* will not be traced or recorded. You will remain anonymous unless you choose to identify yourself. If you do give your name, your identity will be protected to the extent allowed by law. No disciplinary action or retaliation will be taken against you for reporting to the Hotline in good faith.

You may also post a complaint on the hotline service center's website at **WWW.HOTLINE-SERVICES.COM**. All calls and contacts made to the Hotline service will be reviewed by the Chief Compliance Officer and will be responded to fairly. All complaints or reports will be carefully investigated before any action is taken. The rights of all staff, including anyone who is the subject of a *Compliance Hotline* call or report, will be respected and protected. Actions taken will not be made public.

NON-RETALIATION POLICY

If you see something don't hesitate to say something!

Employees have an affirmative duty to report compliance violations. No disciplinary action or retaliation will be taken against you when you report a perceived issue, problem, concern, or violation to management, the Chief Compliance Officer, or the *Compliance Hotline* "in good faith".

The "in good faith" requirement means an employee actually believes or perceives to be true the information reported. We value and respect the dignity of the individual; therefore, you have the right to be treated fairly and with respect while the organization must make sure that you are treated that way.

COMPLIANCE RESPONSIBILITIES/DUTY TO REPORT

RESPONSIBILITY OF ALL EMPLOYEES

All employees and others covered by this *Code of Conduct* are expected to follow all laws, regulations, and policies. Anyone who knows about a violation **must** report this information. If you do not report a violation, you may be subject to disciplinary action even if you were not directly involved. Reporting does not protect you from disciplinary action regarding your own performance or conduct, but telling the truth about your own actions will be taken into consideration.

RESPONSIBILITY OF MANAGERS

You have the obligation to ensure that employees under your supervision:
